THE OFFICIAL NEWSLETTER OF RIVERSIDE INTERNATIONAL SCHOOL

The Daily Cross-Border School Journey

For many families in Maseru, sending children to school in South Africa has become routine. However, it comes at a cost. Early mornings start before sunrise, with border queues, and at times delays leaving children exhausted before classes even begin.

Parents carry the burden too, having to manage transport costs, fuel, paperwork, and constant worry about safety and timing. Family life revolves around commuting instead of quality time. For children, hours on the road take away from rest, homework, sport, and simply being kids.

At Riverside International School Maseru, we believe quality education should be closer to home. This means less travel, less stress, and more time for children to thrive.

Construction Update!

Phase 1 construction is progressing well, and the site is steadily taking shape. Each phase brings us closer to delivering a space that reflects the quality and vision of Riverside International School. We remain on track, with our target set for completion in mid-October, and are excited by the momentum as we move toward bringing this campus to life.

Construction:
23 April 2026

Meet Our Mascot, Rivie!

At Riverside International School, strong culture starts with the values we instill into our students from day one. This mission is brought to life by our superhero mascot, Rivie.

As a friendly crocodile, Rivie represents respect, kindness, and inclusion. He encourages empathy, celebrates differences, and promotes a safe, bully-free environment.

Rivie is a "superhero of learning," meaning he inspires curiosity, confidence, and a love for discovery. He helps learners grow not just academically, but in character and belonging.
